DEFINITIONS

Self- Monitoring means the WFM will monitor themselves for fever by taking their temperature twice a day and remain alert for covid like symptoms. If WFM develops symptoms, you must notify Employee Health and/or your healthcare provider. Recommend advance notice to your healthcare provider prior to further evaluation.

Last Name:	First Name:	Birthda	te:		Employee#/C#:				
Job Classification:	Item:	Work Fa	acility:	Dept#/PL:	Dept/Division:				
Email Address:	Work Phone:		Supervisor's Na	me:					

You have been identified to self-monitor for signs and symptoms of respiratory illness. You are responsible for monitoring yourself for symptoms. This tool was developed to assist you with this effort. If you think you have a respiratory infection, stay home, except to get medical care.

• If your temperature is greater than 100.0°F (37.8°C) and/or you develop a cough with shortness of breath or other signs of illness, you can either contact Employee Health Services or your healthcare provider

 \Box You are required to return this log to Employee Health prior to returning to work

□ You are not required to return this log to Employee Health
