

**LOS ANGELES GENERAL MEDICAL CENTER
MC541-A CREDENTIALING VERIFICATION METHODS AND REQUIREMENTS
LICENSED INDEPENDENT PRACTITIONERS**

Initial Draft	Revisions
1/18/02	1/26/02, 2/6/02
	4/2/03, 5/5/05, 10/9/2008, 04/04/2011, 11/7/2012, 9/3/2013, 12/4/2013, 8/15/2015, 4/5/2017, 6/25/2021, 3/6/2024

DEFINITIONS FOR PURPOSE OF THIS DOCUMENT:

Licensed Independent Practitioner:

For the purposes of this document, this group includes Physicians, Dentists, Clinical Psychologists and Podiatrists.

Exhausted Effort:

Two attempts will be made to obtain all required verifications. The attempts will ordinarily be made three weeks apart. Once the second attempt has been made, and no response has been received, the Chair of the Credentials Committee will be notified that an incomplete file is ready for the Chair's review. The Chair of the Credentials Committee determines whether or not the lack of verified information is critical to continuation of the credentialing process. If the Chair determines that the information is not critical, the credentialing process continues. The Chair's determination should be documented in the applicable credentials file. If the Chair determines that the information is critical, the applicant will be sent a letter which will request that the information be provided within a period not to exceed 30 days. If the information is not provided within the 30-day period, the application will be considered to be withdrawn by the applicant.

Complete Application:

A complete application, at the point that verifications are finished means the following:

- all information was verified and there is nothing missing in the file;
- all gaps in time of 6 months or more are accounted for;
- any discrepancies between information that the applicant provided and what was verified have been resolved.

Additional Reference Source: Use *The Credentialing Desk Reference*, published by Opus Communications as a reference tool for determining methods for verification of education, training, certification, etc. for physicians and non-physicians.

Minimum Verification Requirements:

It should be noted that the Verification Methods and Requirements document list verification elements that apply to all practitioners. There may be additional items to verify, depending upon the privileges that an applicant has requested. These verifications should be incorporated into the process at the appropriate time.

Documents to be obtained from Each Licensed Independent Practitioner via Cactus App/Central, DHS Electronic System

16.	<p>Healthcare Organization Affiliations</p> <p>Hospitals, ambulatory facilities, etc.</p> <p>Verify current status, begin/end dates of affiliation, adverse actions, performance, or behavior problems, in good standing if current affiliation or when affiliation ended.</p>	<p>Approved methods:</p> <p>Write directly to the healthcare organization or contact via telephone inquiry. Some organizations have authorized web sites for this purpose. May use current roster from healthcare facility (roster must be updated quarterly and list those practitioners "in good standing").</p>	<p>X</p> <p>All affiliations for past 5 years</p>	<p>X</p> <p>One (1) current affiliation for practitioners who are not on the Active Staff of Los Angeles General</p>		
17.	<p>Work History</p>	<p>Obtain from practitioner on application. There should be no unaccounted-for gaps in time beginning with date of graduation from medical school or date of receipt of ECFMG. It is not required, however, that all the time be verified.</p> <p>A minimum of five years of relevant work history (work as a health professional including experience practicing as a non-physician health professional) is obtained through the practitioner's application or Curriculum Vitae. The ASO documents that the work history was reviewed by signature or initials of staff who reviewed work history and the date of the review on the application or CV. If the practitioner has practiced fewer than five years from the date of credentialing, the history begins with initial licensure. Work history includes the beginning and ending month and year for each work experience. Any gap in work history that exceeds six months is reviewed and clarified either verbally or in writing. Verbal communication is appropriately documented in the credentialing file. A gap in work history that exceeds one year is clarified in writing.</p>	<p>X</p>	<p>X</p> <p>(only applies if practitioner has been on leave of absence since previous credentialing event)</p>
