Subject: <b>GIRLS HEALTH SCREENING</b>		Original Issue Date:	
		Supersedes:	
Departments Consulted:	Approved By: (Signature on File) Heidi M. Mittwer Medical Records Director	Approved By:	(Signature on File) David Oh, MD Medical Director Administrator

## PURPOSE

To identify and prioritize the physical and behavioral health needs of girls entering detention through a validated screening instrument.

## PROCEDURE

Every girl entering the juvenile justice system must receive comprehensive, evidence-based and gender-responsive physical and mental health screening and assessment that identifies trauma.

Medical Records/HIM Department will single scan the Medical/Mental health screening assessment into PEMRS/Power chart, under notes for a single document scanning process.

Upon completion of the GHS assessment information should be electronically transmitted to Health Care Providers through PEMRS/Message Center for the continuity of care.

Continuum of care:

1. Detention Intake GHS Screen.
2. Detention Health Assessment and Treatment.
3. Detention Pre-release Planning/Medical Passport.
4. Community Agencies Education, Child Welfare.
5. Community Health Providers.
