

**POLICY AND PROCEDURE MANUAL
PHARMACY SERVICES**

SECTION: **INTRAVENOUS ADMIXTURE PROGRAM**
SUBJECT: **COMPOUNDING ACCURACY CHECKS**

CODE: 5.04.1
DATE: 1/5/07
REVISED: 4/19/22
APPROVED: Thinh Tran, Pharm. D.
Page **1 of 1**

POLICY

To establish written procedures for double-checking compounding accuracy for compounded sterile products (CSPs) during preparation and prior to release.

PROCEDURE

- 1 Labels will be checked for accuracy and completeness against the entered order.
- 2 The used ingredient containers and syringes used to measure the additive will be included along with the final product until the final product check is completed by a pharmacist.
- 3 The compounding Pharmacy Technician will have the pharmacist pre-check the ingredients and volume of the product prior to injecting it into a sterile solution as well as have a pharmacist do the final post-check.
- 4 Compounding personnel must visually confirm that the ingredients measured in syringes match the written order.
