

Department of Facilities POLICY AND PROCEDURE

POLICY NUMBER: 491
VERSION: 1

SUBJECT: DOMESTIC COLD WATER

POLICY:

The potable water back flow devices will be inspected and certified on a regular basis, as per All Regulatory Compliance, Department of Public Health and the Preventative Maintenance Program.

PURPOSE:

To ensure a safe and reliable source of potable water to the facility, free of contamination.

PROCEDURE:

Plumbers are to maintain cold water systems throughout the Facility, and protect the potable water from contamination.

Certified potable water is provided to the facility and health centers by the local water company.

When equipment requires industrial water, the potable water is protected by an approved backflow device. Backflow devices are certified every year by a licensed backflow tester.
