

RANCHO LOS AMIGOS NATIONAL REHABILITATION CENTER

Infection Prevention and Control

SUBJECT: VACCINATION PROGRAM

Policy No.: IC102
Last Revision: 07/2012
Reviewed: 05/2016
Page: 1 of 1

The following immunizations are offered to all employees and volunteers who are considered to be at risk based on their category-of-work assignment. All healthcare personnel are urged to review their immunization records and consider vaccination if their immune status is unclear. Information regarding the following vaccines may be obtained through Employee Health Services (EHS).

Hepatitis B: Category I and II personnel having any contact with blood or body fluids. Category III personnel who are not in contact with human blood or body fluids are not mandated, but may request vaccination from EHS.

Influenza: All hospital personnel.
