715 The applicant shall submit a completed application, including desired membership category
716 and a specific list of desired clinical privileges, to the President and an advanced payment of
717 Association staff dues and/or fees paid to the Association, as required. The Attending Staff
718 Office Director shall be notified of the application, who shall direct the Medical Center's
719 Association Attending Staff Office to verify, with primary sources whenever possible, the
720 references, verification of identity, licensure status or other information submitted or in
721 support of the application. The Association's authorized representative shall query the
722 Medical Board of California and National Practitioner Data Bank regarding the applicant or
723 member and submit any resulting information to the Credentials and Privileges Advisory
724 Committee for inclusion in the applicant's or member's credentials file(s). The Attending
725 Staff Director shall promptly notify the applicant of any problems in obtaining any information
726 required or if any of the information obtained from primary sources varies from that provided
727 by the applicant. It shall be the applicant's responsibility to obtain all required information.
728 When collection and verification of all information, including, without limitation, the report of
729 the National Practitioner Data Bank, is accomplished, the application shall be considered
730 complete and the Attending Staff Office Director shall transmit the application and all
731 supporting materials to the chair of the department where the applicant would be assigned.

732 4.3-2 Department Action:

733 After receipt of the application, the chair or appropriate committee of each department to
734 which the application is submitted, shall review the application and supporting
735 documentation and may conduct a personal interview with the applicant at the chair's or
736 committee's discretion. The department chair/chief may consult with the appropriate
737 department chair/chief of the appropriate Professional School if that person is not the
738 department chair/chief at the Medical Center, and the appropriate Dean of the Professional
739 School concerning the application, and shall provide a signed statement recommending
740 approval or disapproval. This statement shall be transmitted with the application to the
741 departmental Credentials Committee, if any, of the department where the applicant would be
742 assigned and shall be used in all further proceedings. The departmental Credentials
743 Committee, if any, shall transmit its recommendation on the applicant to the department
744 chair/chief. If either such statement or recommendation is adverse to the applicant, the
745 statement or recommendation shall state the reasons. At timely intervals, not to exceed
746 ninety (90) days after receipt of the completed application for membership, the department
747 chair/chief shall review the information submitted to the Attending Staff Office Director and
748 shall submit his or her recommendations to the Credentials and Privileges Advisory
749 Committee. The chair or appropriate committee shall evaluate all matters deemed relevant
750 to a recommendation, including information concerning the applicant's provision of services
751 within the scope of privileges granted, his or her clinical and technical skills and any relevant
752 data available from Medical Center performance improvement activities and shall transmit to
753 the credentials committee a written report and recommendation as to membership and, if
754 membership is recommended, as to membership category, department affiliation, clinical
755 privileges to be granted, and any special conditions to be attached. The chair may also
756 request that the Executive Committee defer action on the application.

757 1. In the event that the applicant or re-applicant is the department chair/chief, the vice-
758 chair/chief or chair of the department credentials committee, if any, shall act upon
759 the application.

760 4.3-3 Credentials and Privileges Advisory Committee Action:

761 The Credentials and Privileges Advisory Committee shall receive the departmental
762 recommendations, review the application, evaluate and verify the supporting documentation
763 and other relevant information. The Credentials and Privileges Advisory Committee may

764 elect to interview the applicant and seek additional information. As soon as practicable, the
765 Credentials and Privileges Advisory Committee shall make specific, written
766 recommendations for membership and if membership is recommended, as to membership
767 category, department affiliation and delineating the applicant's clinical privileges in the
768 department, and these recommendations shall be made a part of the Committee's report to
769 the Executive Committee. Every other department in which the applicant seeks clinical
770 privileges shall provide the Credentials and Privileges Advisory Committee with specific,
771 written recommendations for delineating the applicant's clinical privileges in the particular
772 department, and these recommendations shall be made a part of the Credentials and
773 Privileges Advisory Committee's report to the Executive Committee. A written record of the
774 department's review shall be confidentially maintained by the Association's Attending Staff
775 Office. Based on the above deliberations, the Credentials and Privileges Advisory
776 Committee shall transmit to the Executive Committee, the completed application together
777 with supporting documents and the report and recommendations of the Credentials and
778 Privileges Advisory Committee. Where adverse action in the form of rejection of the
779 application or limitation of the privileges requested or deferment is recommended, the
780 reasons for such recommendation shall be stated along with the recommendation.

781 **4.3-4 Executive Committee Action:**

782 At its first regular meeting following receipt of the application and the report and
783 recommendations of the department(s) and Credentials and Privileges Advisory Committee,
784 the Executive Committee shall consider the report and any other relevant information. The
785 Executive Committee may request additional information, return the matter to the
786 Credentials and Privileges Advisory Committee for further investigation, which shall be
787 provided to the Executive Committee within forty-five (45) days, and/or elect to interview the
788 applicant. The Executive Committee shall determine whether to recommend to the
789 Governing Body, through the Chief Medical Officer and Chief Executive Officer, that the
790 applicant be provisionally appointed to the Association, with the clinical privileges requested
791 and any special conditions to be attached, that adverse action be taken on the application in
792 the form of rejection of the application or limitation of the privileges requested, or that the
793 application be deferred for further consideration. The Executive Committee may, in its
794 discretion, refer the application and all supporting and relevant documents back to the
795 Credentials and Privileges Advisory Committee for a recommendation, which shall be
796 provided to the Executive Committee within sixty (60) days. The reasons for each
797 recommendation shall be stated.

798 **4.3-5 Effect of Executive Committee Action:**

- 799 1. **Defer:** When the recommendation of the Executive Committee is to defer the
800 application for further consideration, the reasons for deferment should be stated,
801 and the recommendation must be followed up within sixty (60) days with a
802 subsequent recommendation for appointment with specified clinical privileges or for
803 rejection of Association membership.
- 804 2. **Favorable:** When the recommendation of the Executive Committee is favorable to
805 the applicant, this recommendation shall promptly be forwarded to the Governing
806 Body.
- 807 3. **Adverse:** When the recommendation of the Executive Committee is adverse to the
808 applicant either in respect to appointment or clinical privileges, the Executive
809 Committee shall also assess and determine whether the adverse recommendation
810 is for a "medical disciplinary" cause or reason. A medical disciplinary action is one
811 taken for cause or reason that involves that aspect of a practitioner's current
812 competence or professional conduct that is reasonably likely to be detrimental to
813 patient safety or to the delivery of patient care. After such adverse determination,
814 the President shall promptly so notify the applicant by certified mail, return receipt
815 requested, of his or her hearing rights under Article VII.

816 **4.3-6 Governing Body's Action on the Application:**

- 817 1. **Defer:** The Governing Body may accept the recommendation of the Executive
818 Committee or may refer the matter back to the Executive Committee for further

819 consideration, stating the purpose for such referral and setting a reasonable time
820 limit for making a subsequent recommendation.

821 2. **Favorable:** Within fifteen (15) days after the receipt of a favorable recommendation
822 by the Executive Committee, the Governing Body shall act on the matter and shall
823 affirm the recommendation of the Executive Committee if the Executive Committee's
824 decision is supported by substantial evidence or automatically after thirty (30) days if
825 no action is taken by the Governing Body. In the latter event, the Governing body
826 shall be deemed to have affirmed the Executive Committee's recommendation. If
827 the Governing Body concurs with the recommendation of the Executive Committee,
828 the Governing Body's decision shall be final.

829 3. **Adverse:** If the Governing Body's tentative decision is adverse to the applicant in
830 respect to either appointment or clinical privileges, the Governing Body shall
831 promptly notify him or her of such tentative adverse decision by certified mail, return
832 receipt requested, and such adverse decision shall be held in abeyance until the
833 applicant has exercised or has been deemed to have waived his or her rights under
834 Article VII.

835 4.3-7. Exercise of Applicant's Rights

836 In the event the applicant waives or fails to exercise his or her rights under Article VII, the
837 Governing Body's decision shall be considered final, except that the Governing Body may
838 defer final determination by referring the matter to the Executive Committee for
839 reconsideration. Any such referral back shall state the reasons therefor and shall set a time
840 limit not to exceed sixty (60) days within which a subsequent recommendation to the
841 Governing Body shall be made. After receipt of such subsequent recommendation and new
842 evidence in the matter, if any, the Governing Body shall make a decision either to appoint
843 the applicant to Association membership or to reject him or her for membership. All
844 decisions to appoint shall include a delineation of the clinical privileges which the appointee
845 may exercise.

846 4.3-8. Decision Contrary to Executive Committee Recommendation:

847 Whenever the Governing Body's decision is contrary to the recommendation of the
848 Executive Committee, the Governing Body shall submit the matter to a committee comprised
849 of the Chief Medical Officer, the CEO, the President, and the department chair/chiefs)
850 involved for review and recommendation and shall consider such recommendation before
851 making their decision final. Such committee shall report back to the Governing Body within
852 fifteen (15) days with its recommendation, and the Governing Body shall render a decision
853 within fifteen (15) days after his or her receipt of such recommendation.

854 4.3-9 Expedited Processing:

855 For applicants to the Temporary Staff, an expedited process of appointment may be
856 implemented if the President, with concurrence by the chair of the department most relevant
857 to the applicant's credentials, recommends the applicant's appointment and the Governing
858 Body concurs in that recommendation. Although an applicant to the Temporary Staff may
859 have been appointed through this expedited process, his or her application shall still be
860 processed through the Executive Committee.

861 Applicants are ineligible for expedited processing if, at the time membership may be
862 granted, any of the following has occurred:

- 863 1. The applicant submits an incomplete application.
- 864 2. There is a current challenge or previously successful challenge to licensure.
- 865 3. The applicant has received an involuntary termination of medical staff membership
866 at another organization.

867 4. The applicant has received involuntary limitation, reduction, denial, suspension or
868 loss of medical privileges.

869 4.3-10 Notice of Final Decision:

870 When the Director's decision is final, he or she shall send special notice of such decision to
871 the President of the Association, the Executive Committee, to the chair of the department(s)
872 concerned, Chief Medical Officer, CEO and to the applicant, which special notice shall be
873 sent to the applicant by registered mail, return receipt requested, if there is an adverse
874 decision.

875 4.3-11 Reapplication After Adverse Decision:

876 Any applicant whose application receives a final adverse decision either by the Director or
877 under Article VII if the applicant requests a hearing, regarding membership appointment or
878 clinical privileges shall not be eligible to reapply for Association membership or for the
879 rejected clinical privileges for a period of two (2) years from the date of the final adverse
880 decision of the prior application. Any such reapplication shall be processed as an
881 application for initial appointment. In the reapplication, the applicant shall submit such
882 additional information as may be requested to demonstrate that the basis for the previous
883 adverse decision no longer exists.

884 4.4 Reappointment Process

885 4.4-1. Application Submission:

886 Applications reappointment shall be considered in a timely manner by all persons and
887 committees required by these bylaws to act thereon. While special or unusual
888 circumstances may constitute good cause and warrant exceptions, the following maximum
889 time period provide a guideline for routine processions of applications. At least one hundred
890 fifty (150) days prior to the end of each Association member's period of appointment, a
891 reappointment application form and a clinical privileges form shall be mailed, delivered or
892 notified that the forms are electronically available to the member. Within thirty (30) days
893 after receipt, and in no event later than ninety (90) days prior to the end of the member's
894 current period of appointment, the member shall complete such forms and submit same to
895 the President through the Attending Staff Office Director for transmission to the appropriate
896 department chair/chief and departmental Credentials Committee, if any, and the Credentials
897 and Privileges Advisory Committee. If an application for reappointment is not received at
898 least thirty (30) days prior to the expiration date, written notice shall be promptly sent by the
899 Association Office to the member advising that the application has not been received and
900 that membership will expire on the expiration date.

901 4.4-2 Application Information and Verification:

902 Reappointment applications forms shall include all information necessary to update and
903 evaluate the qualifications of the applicant including but not limited to, the matters set forth in
904 Section 4.2 of this Article IV, as well as other relevant matters and shall require information
905 concerning changes in physical and mental health status and other qualifications of the
906 member since the previous review of the member's qualifications. Upon receipt of the
907 application the information shall be processed and verified as set forth in Section 4.3-1 of
908 this Article IV.

909 4.4-3 Burden of Producing Information:

910 In connection with all applications for reappointment, the applicant shall have the burden of
911 producing adequate information for a proper evaluation of his or her current competence,
912 character, adequate physical and mental health status, ethics, current California licensure or
913 Section 2113 Certification, current Drug Enforcement Administration certification (for
914 physicians, dentists and podiatrists, in order to qualify for certain privileges to prescribe
915 restricted medications, if needed), professional training and experience, verification of
916 identity and other qualifications for the membership category and clinical privileges
917 requested, and, if applicable, the current insurance coverage as indicated in Article XVII,

918 and for resolving any reasonable doubts about these matters and for satisfying all requests
919 for information. The applicant's failure to fulfill this requirement, the applicant's withholding
920 of any relevant information, or the applicant's submission of any inaccurate information, or
921 his or her undue delay in doing so, shall be grounds for automatic withdrawal of the
922 application. In addition, the applicant may be required to submit to a medical or
923 psychological examination, at the applicant's expense, if deemed appropriate by the
924 Executive Committee. The applicant may select the examining physician from an outside
925 panel of three physicians chosen by the Executive Committee.

926 **4.4-4 Department and Credentials Committee Action:**

927 Within forty-five days (45) after receipt of such forms from the Association member, the
928 department chair/chief and departmental Credentials Committee, if any, shall review the
929 information submitted in such forms and other pertinent information available on such
930 member and shall submit its recommendation, regarding reappointment to the Association
931 and the granting of clinical privileges for the ensuing two (2)-year period, to the Credentials
932 and Privileges Advisory Committee for review. After such review, the Credentials and
933 Privileges Advisory Committee shall thereafter transmit final written recommendation to the
934 Executive Committee. This review shall also include an assessment of the member's
935 professional performance, current competence, and clinical and/or technical skills, and
936 judgment in the treatment of patients. The review by the department chair/chief and the
937 departmental Credentials Committee, if any, shall also include an assessment of the
938 information collected in the course of the Medical Center's Quality Improvement Program
939 and risk management activities relevant to the member's performance, as well as
940 practitioner-specific information regarding professional performance. Each department shall
941 develop and monitor the practitioner-specific information and compare this data to relevant
942 benchmarks.

943 **4.4-5 Executive Committee Action:**

944 At its first regular meeting following receipt of the recommendation of the Credentials and
945 Privileges Advisory Committee, the Executive Committee shall consider the report and any
946 other relevant information. The Executive Committee may request additional information,
947 return the matter to the Credentials and Privileges Advisory Committee for further
948 investigation, which shall be provided to the Executive Committee within forty-five (45) days,
949 and/or elect to interview the applicant. The Executive Committee shall submit its written
950 recommendations to the Governing Body, through the Chief Medical Officer, and CEO,
951 concerning the reappointment, non-reappointment, and/or clinical privileges of each member
952 then scheduled for periodic appraisal. Where non-reappointment or a change in clinical
953 privileges is recommended, the reasons for such recommendations shall be stated and
954 documented. Thereafter, the procedures provided in 4.3-5 through 4.3-11 of this Article IV
955 relating to recommendations on applications for initial appointment shall be followed.

956 **4.4-6 Failure to File Reappointment Application:**

957 If a member fails to submit an application for reappointment, completed in accordance with
958 this Section 4, within thirty (30) days past the date that it was due, prior to the expiration of
959 his or her period of appointment, he or she shall be deemed to have voluntarily resigned his
960 or her Association membership and all clinical privileges upon the expiration of his or her
961 current period of appointment. In the event membership terminates for the reasons set forth
962 herein, the procedures set forth in Article VII shall not apply.

965 his or her membership category or clinical privileges shall submit an application in writing on the
966 prescribed form at any time, except that no such application shall be submitted within twelve (12)
967 months of the date a similar request was denied. Such applications shall be processed in the same
968 manner as applications for initial appointment in accordance with Sections 4.2 and 4.3 of this Article
969 IV.

970 **4.6 Leave of Absence**

971 **4.6-1 Leave Status**

972 At the discretion of the Executive Committee, an Association member may obtain a
973 voluntary leave of absence from the staff upon submitting a written request to the medical
974 executive committee stating the approximate period of leave desired, which may not exceed
975 one (1) year. During the period of the leave, the member shall not exercise clinical privileges
976 at the Medical Center, and membership rights and responsibilities shall be inactive, but the
977 obligation to pay dues, if any, shall continue, unless waived by the Association.

978 **4.6-2 Termination of Leave**

979 At least thirty (30) days prior to the termination of the leave of absence, or at any earlier
980 time, the Association member may request reinstatement of privileges by submitting a
981 written notice to that effect to the Executive Committee. The Association member shall
982 submit a summary of relevant activities during the leave, if the Executive Committee so
983 requests. The Executive Committee shall make a recommendation concerning the
984 reinstatement of the member's privileges and prerogatives, and the procedure provided in
985 Section 4.4 of this Article IV shall be followed.

986 **4.6-3 Failure to Request Reinstatement**

987 Failure, without good cause, to request reinstatement shall be deemed a voluntary
988 resignation from the Association and shall result in automatic termination of membership,
989 privileges, and prerogatives. A member whose membership is automatically terminated shall
990 be entitled to the procedural rights provided in Article VII for the sole purpose of determining
991 whether the failure to request reinstatement was unintentional or excusable, or otherwise. A
992 request for Association membership subsequently received from a member so terminated
993 shall be submitted and processed in the manner specified for applications for initial
994 membership.

995 **4.6-4 Medical Leave of Absence**

996 The Executive Committee shall determine the circumstances under which a particular
997 Association member shall be granted a leave of absence for the purpose of obtaining
998 treatment for a medical condition or disability. In the discretion of the Executive Committee,

1000 "medical leave" which is not granted for a medical disciplinary cause or reason.

1001 **4.6-5 Military Leave of Absence**

1002 Requests for leave of absence to fulfill military service obligations shall be granted upon
1003 written notice and review by the Executive Committee. Reactivation of membership and
1004 clinical privileges previously held shall be granted, notwithstanding the provisions of
1005 Sections 4.6.2 and 4.6-3 of this Article IV, but may be granted subject to monitoring and/or

1015 California and consistent with any restrictions thereon, and shall be subject to the rules and
1016 regulations of the department and the authority of the department chair/chief and the
1017 Association.

1018 **5.1-2 Evaluation of Requested Privileges:**

1019 Every initial application for appointment and every application for reappointment to
1020 Association membership must contain a request for specific clinical privileges desired by the
1021 applicant. The evaluation of such requests shall be based upon documentation and
1022 verification of, with primary sources whenever possible, the applicant's education, training,
1023 experience, demonstrated current professional competence, and judgment, clinical
1024 performance at the Medical Center, the documented results of patient care and other quality
1025 review and monitoring which the Association deems appropriate, and other relevant
1026 information. Privilege determination may also be based on pertinent information concerning
1027 clinical performance obtained from other hospitals and health care settings where the
1028 applicant exercises clinical privileges, and references. It shall be the applicant's
1029 responsibility to obtain all required information. The applicant shall have the burden of
1030 establishing his or her qualifications and competency in the requested clinical privileges.
1031 The department chair/chief and departmental Credentials Committee, if any, shall review the
1032 information submitted and shall make their recommendation regarding the requested clinical
1033 privileges through the Credentials and Privileges Advisory Committee, which shall review

1035 Committee. Thereafter, the procedure to be followed shall be as provided in Section 4.3-5
1036 through 4.3-11 of Article IV. No specific privilege may be granted to a member if the task,

1040 described in Section 5.3 of this Article V.

1041 **5.1-3 Modification of Privileges:**

1042 On its own, upon recommendation of the credentials committee, or pursuant to a request
1043 under Section 4.5, the Executive Committee may recommend a change in the clinical
1044 privileges of a member. The Executive Committee may also recommend that the granting of
1045 additional privileges to a current medical staff member be made subject to monitoring in
1046 accordance with procedures similar to those outlined in Section 5.3. Applications for
1047 additional clinical privileges shall be in writing on the prescribed form. Such applications
1048 shall be processed in the same manner as applications for initial appointment in accordance
1049 with Sections 4.2 and 4.3 of Article IV.

1051 Periodic reevaluation of clinical privileges and the increase or curtailment of same shall be
1052 based, in part, upon the observation of health services provided, review of the records of
1053 patients treated in the Medical Center and other hospitals, and review of the records of the
1054 Association which document the evaluation of the member's participation in health services
1055 delivery and shall be carried out as part of the regular reappointment process.

1056 **5.1-5 Admitting Privileges:**

1057 Privileges to admit patients must be specifically requested and can be granted only to
1058 qualified practitioners meeting the clinical criteria for admitting privileges. Admitting
1059 privileges are not limited and shall not be exclusive to Medical Center employees, members
1060 with Medical Center contracts, or to any single specialty.

1061 **5.1-6 Cross-Specialty Privileges:**

1062 Any request for clinical privileges that are either new to the Medical Center or that overlap
1063 more than one department shall initially be reviewed by the appropriate departments for
1064 appropriateness of the new procedure or services. The Executive Committee, through the
1065 Credentials and Privileges Advisory Committee, shall facilitate the establishment of Medical
1066 Center-wide credentialing criteria for new or trans-specialty procedures, with the input of all
1067 appropriate departments, with a mechanism designed to ensure that quality patient care is
1068 provided for by all individuals with such clinical privileges. In establishing the criteria for such
1069 clinical privileges, the Executive Committee may establish an ad-hoc committee with
1070 representation from all appropriate departments. Such Medical Center-wide credentialing

1218 observed by the department chair/chief or the chair's designee during the period of
1219 proctoring specified in that department's rules and regulations, to determine suitability to
1220 continue to exercise the clinical privileges granted in that department. The exercise of

1253

5.3-4 Advancement with Continued Proctoring:

1254
1255
1256
1257

If such advancement is granted absent such certification, continued proctorship on the uncertified procedure shall continue for the specified time period.

1258

1259
1260

1304 history and physical or update must be performed and documented prior to the surgery or
1305 procedure requiring anesthesia.

1307 **5.7-1 Definition of Telemedicine**

1308 Telemedicine involves the use of electronic communication or other communication
1309 technologies to provide or support clinical care to patients located at a distant site.
1310 Practitioners who render a diagnosis or otherwise provide clinical treatment to a patient at
1311 this Medical Center by telemedicine are subject to the Association credentialing and
1312 privileging processes.

1316 In order to qualify for telemedicine privileges, the practitioner must meet all the requirements
1317 set forth in the Bylaws and Rules for privileges (either temporary or granted in connection
1318 with membership).

1319 **5.8 Lapse of Application**

1320 If an Association member requesting a modification of clinical privileges fails to furnish the

1331 **1. Members are Subject to Evaluation:** All members are subject to evaluation based
1332 on Association peer review criteria, adopted consistent with these bylaws.
1333 Evaluation results are used in privileging, system improvement, and when
1334 warranted, corrective action.

1335 **2. Peer Review Criteria:** Departments shall develop and routinely update peer review
1336 criteria based on current practices and standards of care, which shall be the sole
1337 criteria used in evaluating those applying for membership and privileges and the
1338 performance of members and privileges holders. "Patient satisfaction" survey
1339 responses shall not be used to evaluate professionals for membership or privileging
1340 unless the methodology used is considered reliable by the Association.

1371
1372

1. **Definition:** Focused professional practice evaluation (FPPE) is a process initiated when the conclusions from individual case review or ongoing professional practice evaluation raises questions or concerns regarding a practitioner’s ability to provide safe, high quality patient care. The proctoring program, for initial and new privileges, is a component of the FPPE process.

1373
1374
1375
1376

FPPE is not considered an investigation as defined in these Bylaws and is not subject to the requirements and procedures of the investigation process. If an FPPE results in a subsequent plan to perform an investigation, the process outlined in Section 6.2 of this Article VI shall be followed.

1377

2. **Initiation:** FPPE is initiated when any of the following criteria are met:

1378
1379
1380
1381

When an Association member has been granted initial privileges or an existing Association member has been granted new privileges or is returning from a leave of absence. The proctoring policies described in these Bylaws and in individual department policies will be followed;

1382

1391
1392
1393
1394

4. **All Members:** All members and privilege holders not otherwise subject to initial review are reviewed for compliance with the relevant department peer review criteria on an on-going basis. In addition to information gathered under routine screening, determined by the department, such as periodic health record review, proctoring, monitoring of diagnostic and treatment techniques, and discussions with other professionals, complaints and concerns are analyzed in light of the department peer review criteria. Peer review analysis shall be conducted and reported using mechanisms determined by the department no less than annually. Members are kept apprised of reviews of their performance. Performance monitoring, corrective action or other measures are implemented or recommended.

1395

6.1-4 External Peer Review

1396
1397
1398
1399
1400

External peer review may be used to inform Association peer review as delineated under these bylaws. The Credentials and Privileges Advisory Committee or the Executive Committee, upon request from a Department or upon its own motion, in evaluating or investigating an applicant, privileges holder, or member, may obtain external peer review in the following circumstances:

1401

1403
1404

2. No current Association member can provide the necessary expertise in the clinical procedure or area under review;

1405

3. To promote impartial peer review; and

6.1-5 Results of Review

1408
1409
1410
1411
1412
1413
1414

Information resulting from ongoing peer review of members according to the relevant department criteria and analyzed by the process established in these bylaws must be acted upon. The Association officers, department and committees may counsel, educate, issue letters of warning or censure, or recommend focused professional practice evaluation in accordance with Bylaws Section 6.1-3 in the course of carrying out their duties without initiating formal corrective action. Comments, suggestions and warnings may be issued orally or in writing. The practitioner shall be given an opportunity to respond in writing and

1415 may be given an opportunity to meet with the officer, department or committee. Any actions
1416 documented in writing shall be maintained in the member's peer review file(s). Executive
1417 Committee approval is not required for such actions, although actions related to FPPE shall
1418 be reported to the Executive Committee. The actions shall not constitute a restriction of
1419 privileges or ground for any formal hearing or appeal rights under Article 7 of these Bylaws.
1420 Resulting action can be but is not limited to:

- 1421 1. documenting in the member's peer review file(s) that the member is performing well
1422 or within desired expectations;
- 1423 2. identifying issues that require education, comments or suggestions given orally or in
1424 writing, counseling, issuing letters of warning or censure, or a focused evaluation
1425 without initiating formal corrective action;
- 1426 3. recommending to the Executive Committee needed changes in Medical Center
1427 systems to improve patient safety or the quality of patient care; and
- 1428 4. recommending limiting a privilege or privileges or other corrective action under
1429 these bylaws.

1430 The fact of the peer review and any written recommendations, determinations and writings
1431 pertaining to the member shall be included in the member's peer review file(s) and dealt with
1432 according to these bylaws.

1433 **6.2 Routine Corrective Action**

1434 **6.2-1 Collegial Intervention**

- 1435 1. These bylaws encourages the use of progressive steps by Association leaders and
1436 Medical Center management, beginning with collegial and educational efforts, to
1437 address questions relating to an Association member's clinical practice and/or
1438 professional conduct. The goal of these efforts is to arrive at voluntary, responsive
1439 actions by the individual to resolve questions that have been raised.
- 1440 2. Collegial efforts may include, but are not limited to counseling, sharing of
1441 comparative data, monitoring, and additional training or education.
- 1442 3. All collegial intervention efforts by Association leaders and Medical Center
1443 management are part of the Medical Center's performance improvement and
1444 professional and peer review activities.
- 1445 4. The relevant Association leader(s) shall determine whether it is appropriate to
1446 include documentation of collegial interventional efforts in an Association member's
1447 credential file(s) and/or peer review file(s). The Association member will have an
1448 opportunity to review and respond in writing. The response shall be maintained in
1449 that member's credential file(s) and/or peer review file(s) along with the original
1450 documentation.
- 1451 5. Collegial intervention efforts are encouraged but are not mandatory, and shall be
1452 within the discretion of the appropriate Association and Medical Center
1453 management.
- 1454 6. The President, in conjunction with the Chief Executive Officer or the Chief Medical
1455 Officer shall determine whether to direct that a matter be handled in accordance
1456 with another policy or to direct to the Executive Committee for further determination.

1457 **6.2-2 Minor Infractions**

- 1458 1. The President, any Department Chair/Chief, the Executive Committee, or their
1459 respective designees shall be empowered, after an investigation, to take appropriate
1460 disciplinary action in connection with minor infractions. Such disciplinary action may
1461 include, but shall not be limited to, the issuance of a warning, a letter of reprimand
1462 or an admonition.

1463 2. For the purposes of this Section, a "minor infraction" may be any activity or conduct
1464 which is lower than the standards or aims of the Association, but which would not
1465 ordinarily trigger a recommendation for the denial, reduction, suspension, revocation
1466 or termination of privileges or Association membership. A sanction imposed
1467 pursuant to this Section shall constitute grounds for a hearing under Article VII of
1468 these bylaws.

1469 3. At the discretion of the President adverse actions imposed or implemented pursuant
1470 to this section may be reported to the Executive Committee with a copy transmitted
1471 to the Governing Body. If the Executive Committee determines that the violation is
1472 not a minor infraction, or that the intended disciplinary action is inappropriate and
1473 that other action is necessary, the Executive Committee may institute alternative
1474 disciplinary measures in accordance with this Section or in accordance with other
1475 provisions of these bylaws.

1476 **6.2-3 Request:**

1477 Whenever reliable information indicates a practitioner with clinical privileges may have
1478 exhibited any act, statement, demeanor, or conduct, either within or outside the Medical
1479 Center, which is or is reasonably likely to be

- 1480 1. detrimental to patient safety or to the delivery of quality patient care, or
1481 2. to be disruptive or deleterious to the operations of the Medical Center or
1482 3. improper use of Medical Center resources, or
1483 4. below applicable professional standards, or
1484 5. unethical, or
1485 6. contrary to the Association's bylaws, rules, regulations or policies,
1486 then corrective action against such practitioner may be requested by any officer of the
1487 Association, by the chair of any department, by the chair of any standing committee of the
1488 Association, by the Chief Medical Officer, by the CEO, by the DHS Chief Medical Officer, by
1489 the Director, or by the Governing Body upon the complaint, request, or suggestion of any
1490 person.

1491 **6.2-4 Initiation:**

1492 All requests for corrective action shall be in writing, shall be made to the President or
1493 designee to report to the Executive Committee, and shall be supported by reference to the
1494 specific activities or conduct which constitutes the grounds for the request. If the Executive
1495 Committee initiates the request, it shall make an appropriate recording of the reason(s).

1496 **6.2-5 Investigation:**

1497 Whenever corrective action is requested and if the Executive Committee concludes an
1498 investigation is warranted, the Executive Committee shall direct an investigation to be
1499 undertaken. The Executive Committee may conduct the investigation itself, assign the task
1500 to an appropriate Association officer or standing or *ad hoc* committee of the Association, or
1501 may forward such request to the chair of the department(s) wherein the practitioner has
1502 such privileges. Upon receipt of such request, the chair of the department shall immediately
1503 appoint an ad hoc committee to investigate the matter. Should circumstances warrant, the
1504 Executive Committee in its discretion may appoint practitioners who are not members of the
1505 Association as temporary members of the Association for the sole purpose of serving on a
1506 standing or ad hoc committee, and not for the purpose of granting these practitioners
1507 temporary clinical privileges under Article V Section II, If the investigation is delegated to an
1508 officer, department chair/chief or committee other than the Executive Committee, such
1509 officer, department chair/chief or committee shall proceed with the investigation in a prompt
1510 manner and shall forward a written report of its investigation to the Executive Committee
1511 within thirty (30) days. The report may include recommendations for appropriate corrective

1512 action. The member shall be notified by the President that an investigation is being
1513 conducted and shall be offered an opportunity to appear for an interview at a reasonable
1514 time and/or to provide information in the manner and upon such terms as the investigating
1515 body deems appropriate. At such interview, the practitioner shall be informed of the general
1516 nature of the charges against him or her and shall be invited to discuss, explain, or refute
1517 them. The individual or body investigating the matter may, but is not obligated to, conduct
1518 interviews with persons involved; however, such investigation or interview(s) shall not
1519 constitute a "hearing" as that term is used in Article VII, shall be preliminary in nature, and
1520 none of the procedures provided in these bylaws with respect to hearings shall apply
1521 thereto. A record of such interview(s) shall be made by the department or investigating body
1522 and included with its report to the Executive Committee. Despite the status of any
1523 investigation, at all times the Executive Committee shall retain authority and discretion to
1524 take whatever action may be warranted by the circumstances, including summary
1525 suspension, termination of the investigative process, or other action.

1526 **6.2-6 Request Involving a Department Chair/Chief:**

1527 Whenever the request for corrective action is directed against the chair of a department, the
1528 Executive Committee shall appoint an ad hoc investigating committee which shall perform all
1529 the functions of the departmental ad hoc investigating committee as described in
1530 Subsections 6.2-3 and 6.2-4 of this Section 6.2.

1531 **6.2-7 Executive Committee Action:**

1532 Within sixty (60) days following the receipt of the departmental ad hoc or investigating
1533 body's report, the Executive Committee shall take action upon the request for corrective
1534 action. In all cases, the affected practitioner shall be permitted to make an appearance at a
1535 reasonable time before the Executive Committee prior to its taking action on such request.
1536 This appearance shall not constitute a hearing, shall be preliminary in nature, and none of
1537 the procedures provided in these bylaws with respect to hearings shall apply thereto. A
1538 record of such appearance shall be made by the Executive Committee and included in its
1539 recommendation to the Governing Body. The Executive Committee shall take action which
1540 may include, without limitation:

- 1541 1. Rejection of the request for corrective action if the Executive Committee determines
1542 there was no credible evidence for the complaint in the first instance; all adverse
1543 information will be filed in the member's peer review file(s).
- 1544 2. Deferring action for a reasonable time where circumstances warrant.
- 1545 3. Referring the member to the Well-Being Committee for evaluation and follow-up as
1546 appropriate
- 1547 4. Issuance of a letter of admonition, censure, reprimand, or warning, although nothing
1548 herein shall preclude a department chair/chief from issuing informal written or oral
1549 warnings outside the corrective action process. In the event such letter is issued,
1550 the affected member may make a written response which shall be placed in the
1551 member's peer review file(s) in accordance with Article 15.8-6 of these bylaws
- 1552 5. Imposition of terms of probation or special limitations on continued Association
1553 membership or exercise of clinical privileges, including, but not limited to, a
1554 requirement for co-admission, mandatory consultation or proctoring.
- 1555 6. Reduction, modification, suspension or revocation of clinical privileges.
- 1556 7. Termination, modification, or ratification of an already imposed summary suspension
1557 of clinical privileges.
- 1558 8. Recommend suspension of clinical privileges until satisfactory completion of specific
1559 conditions or requirements.
- 1560 9. Recommend suspension of Association membership until satisfactory completion of
1561 specific conditions or requirements.

- 1562 10. Limitation of any prerogatives directly related to the member's delivery of patient
1563 care,
1564 11. Revocation, suspension or probation of Association membership.
1565 12. Other actions appropriate to the facts, including, but not limited to, required reports
1566 to the Medical Board of California or other appropriate State licensing agency and/or
1567 to the National Practitioner Data Bank.

1568 **6.2-8 Determination of Medical Disciplinary Action:**

1569 If the Executive Committee takes any action that would give rise to a hearing pursuant to
1570 these Bylaws, it shall also make a determination whether the action is a "medical
1571 disciplinary" action or an "administrative disciplinary" action. A medical disciplinary action is
1572 one taken for cause or reason that involves that aspect of a practitioner's competence or
1573 professional conduct that is reasonably likely to be detrimental to patient safety or to the
1574 delivery of patient care. All other actions are deemed administrative disciplinary actions.

1575 If the Executive Committee makes a determination that the action is medical disciplinary, it
1576 shall also determine whether the action is taken for any of the reasons required to be
1577 reported to the Medical Board of California pursuant to California Business & Professions
1578 Code Section 805.01.

1579 **6.2-9 Notification of Corrective Actions by the Executive Committee:**

1580 If corrective action as set forth in Section 7.1-1 through 7.1-11 is recommended by the
1581 Executive Committee, that recommendation shall be transmitted to the Chief Medical
1582 Officer, the Chief Executive Officer, the Chief Medical Officer of Health Services, the
1583 Director and the Governing Body. So long as the recommendation is supported by
1584 substantial evidence, the recommendation of the Executive Committee shall be adopted by
1585 the Governing Body as final action unless the member requests a hearing, in which case the
1586 final decision shall be determined as set forth in Article VII.

1587 **6.2-10 Initiation and Action by Governing Body:**

1588 If the Governing Body determines that the Executive Committee has failed to initiate an
1589 investigation on a request for corrective action or to recommend disciplinary action, and that
1590 such failure is contrary to the weight of evidence, the Governing Body may direct the
1591 Executive Committee to initiate an investigation or recommend disciplinary action, but only
1592 after consultation with the Executive Committee. In the event the Executive Committee fails
1593 to take action in response to a direction from the Governing Body, the Governing Body, after
1594 notifying the Executive Committee in writing, shall have the authority to take action on its
1595 own initiative against the practitioner, but this corrective action must comply with Articles VI
1596 and VII of these Association bylaws. If such action is favorable to the member, or constitutes
1597 an admonition, reprimand or warning to the member, it shall become effective as the final
1598 decision of the Governing Body per these bylaws.

1599 **6.3 Summary Restriction or Suspension**

1600 **6.3-1 Initiation:**

1601 The President or in the President's absence, a delegated officer of the Association, or the
1602 Executive Committee, shall have the authority to summarily restrict or suspend the
1603 Association staff clinical privileges of any member or non-member holding privileges, where
1604 the failure to take such action may result in the threat of imminent danger to the health of
1605 any person. Unless otherwise stated, such summary restriction or suspension shall become
1606 effective immediately upon imposition, and the person or body responsible shall promptly
1607 give written notice to the Executive Committee, Chief Medical Officer, CEO, the Director and
1608 the Governing Body. In addition, the affected Association staff member shall be provided
1609 with special notice of the action.

1610 **6.3-2 Written Notice of Summary Suspension:**

1611 The written notice of restriction or suspension shall include a statement of facts
1612 demonstrating that the suspension was necessary because failure to restrict or suspend the
1613 practitioner's privileges summarily could reasonably result in an imminent danger to the
1614 health of an individual and include a summary of one or more particular incidents giving rise
1615 to the assessment of imminent danger. The initial notice shall not substitute for, but is in
1616 addition to, the notice required under Article VII Section 7.2-1 (which applies in all cases
1617 where the Executive Committee does not immediately terminate the summary restriction or
1618 suspension). The notice under Article VII Section 7.3-1 may supplement the initial notice
1619 provided under this section by including any additional relevant facts supporting the need for
1620 summary restriction or suspension or other corrective action.

1621 **6.3-3 Executive Committee Action:**

1622 Within one (1) week after such summary restriction or suspension, a meeting of the
1623 Executive Committee (or a subcommittee appointed by the President) shall be convened to
1624 review and consider the action. Upon request, the member may attend and make a
1625 statement concerning the issues under investigation, on such terms and conditions as the
1626 Executive Committee may impose, although in no event shall any meeting of the Executive
1627 Committee, with or without the member, constitute a "hearing" within the meaning of Article
1628 VII, nor shall any procedural rules apply. The Executive Committee may modify, continue,
1629 or terminate the summary restriction or suspension, but in any event it shall furnish the
1630 member with special notice of its decision within two (2) working days of the meeting.

1631 **6.3-4 Procedural Rights:**

1632 Unless the Executive Committee promptly terminates the summary restriction or
1633 suspension, the member shall be entitled to the procedural rights afforded by Article VII. In
1634 addition, the affected practitioner shall have the following rights:

- 1635 1. Any practitioner who has properly requested a hearing under Article VII of the
1636 Association bylaws may request that the hearing be bifurcated, with the first part of
1637 the hearing being devoted exclusively to procedural matters, including the propriety
1638 of summary restriction or suspension. Along with any other appropriate requests for
1639 rulings, the affected practitioner may request that the Hearing Officer stay the
1640 summary restriction or suspension, pending the final outcome of the hearing and
1641 any appeal.
- 1642 2. At the conclusion of the portion of the hearing concerning the propriety of summary
1643 restriction or suspension, the Judicial Review Committee shall issue a written
1644 opinion on the issues raised, including whether or not the facts stated in the written
1645 notice to the affected practitioner adequately support a determination that failure to
1646 summarily restrict or suspend could reasonably result in "imminent danger" to an
1647 individual. Such written opinion shall be transmitted to both the affected practitioner
1648 and the Executive Committee within one (1) week of the date of the hearing
1649 concerning the propriety of summary restriction or suspension.
- 1650 3. If the Judicial Review Committee's determination is that the facts stated in the notice
1651 required by Section 6.3-2 this Article VI do not support a reasonable determination
1652 that failure to summarily restrict or suspend the practitioner's privileges could result
1653 in imminent danger, the summary restriction or suspension shall be immediately
1654 stayed pending the outcome of the hearing and any appeal.

1655 **6.3-5 Initiation and Action by Governing Body:**

1656 Notwithstanding any other provision of these bylaws, when no person or body authorized by
1657 these bylaws is available to summarily restrict or suspend clinical privileges, the Governing
1658 Body or its designee may temporarily restrict or suspend all or any portion of the clinical
1659 privileges of a practitioner where there is threat or harm to the health or safety of any person
1660 so long as the Governing Body has, before the restrict or suspension, made reasonable
1661 attempts to contact the President or designee and members of the Executive Committee. A
1662 restriction or summary suspension by the Governing Body which has not been ratified by the
1663 Executive Committee within two (2) working days (excluding weekends and holidays) after
1664 the restriction or suspension, shall automatically terminate

- 1665 **6.3-6 Transfer of Patient Care:**
- 1666 Unless otherwise indicated by the terms of the summary restriction or suspension, the
- 1667 patients of the practitioner whose privileges have been summarily restricted or suspended
- 1668 shall be assigned to another Association member by the department chair/chief or by the
- 1669 President considering, where feasible, the wishes of each patient in the selection of such
- 1670 substitute practitioner.
- 1671 **6.4 Automatic Suspension or Limitation**
- 1672 **6.4-1 General:**
- 1673 A practitioner's Association membership and/or clinical privileges shall be terminated,
- 1674 suspended, or limited as described, which action shall be final and shall not be subject to a
- 1675 hearing or appellate review under Article VII, except by a Fair Review under Article VII
- 1676 **6.4-2 License:**
- 1677 1. **Revocation or Expiration:** If a practitioner's license or certificate authorizing him or
- 1678 her to practice in California is revoked or has expired, his or her Association
- 1679 membership and clinical privileges shall be immediately and automatically revoked
- 1680 or suspended as of the date such action becomes effective.
- 1681 2. **Restriction:** If a practitioner's license or certificate authorizing him or her to practice
- 1682 in California is limited or restricted by the applicable licensing or certifying authority,
- 1683 those clinical privileges which he or she has been granted that are within the scope
- 1684 of such limitation or restriction, as determined by the Executive Committee, shall be
- 1685 immediately and automatically limited or restricted in a similar manner.
- 1686 3. **Suspension:** If a practitioner's license or certificate authorizing him or her to
- 1687 practice in California is suspended by the applicable licensing or certifying authority,
- 1688 his or her Association membership and clinical privileges shall be automatically
- 1689 suspended effective upon and for at least the term of the suspension.
- 1690 4. **Probation:** If a practitioner licensed or certified to practice in California is subject to
- 1691 probation by the applicable licensing or certifying authority, his or her applicable
- 1692 Association membership status and clinical privileges shall automatically become
- 1693 subject to the same terms and conditions of the probation effective upon and for at
- 1694 least the term of the probation.
- 1695 **6.4-3 Drug Enforcement Administration Certificate:**
- 1696 1. **Revocation or Expiration:** Whenever a practitioner's Drug Enforcement
- 1697 Administration (DEA) certificate is revoked or has expired, he or she shall
- 1698 immediately and automatically be divested of his or her right to prescribe
- 1699 medications covered by the certificate, as of the date such action becomes effective
- 1700 and throughout its term.
- 1701 2. **Restriction:** Whenever a practitioner's DEA certificate is limited or restricted, his or
- 1702 her right to prescribe medications within the scope of such limitation or restriction,
- 1703 as determined by the Executive Committee, shall be immediately and automatically
- 1704 terminated.
- 1705 3. **Suspension:** Whenever a practitioner's DEA certificate is suspended, he or she
- 1706 shall automatically be divested, at a minimum, of his or her right to prescribe
- 1707 medications covered by the certificate effective upon and for at least the term of the
- 1708 suspension.
- 1709 4. **Probation:** Whenever a practitioner's DEA certificate is subject to probation, his or
- 1710 her right to prescribe medications covered by the certificate shall automatically
- 1711 become subject to the same terms of the probation, effective upon and for at least
- 1712 the term of the probation.

Members of the Association are required to complete medical records within such reasonable time as may be prescribed by the Executive Committee. A limited suspension in the form of withdrawal of admitting and all other privileges until medical records are completed, shall be imposed by the President, or the President's designee, after written notice of delinquency for failure to complete medical records within such period. Bona fide vacation or illness may constitute an excuse subject to approval by the Executive Committee. Members whose privileges have been suspended for delinquent records may admit patients only in life-threatening situations. The suspension shall continue until lifted by the President or his or her designee.

For any failure, without good cause as determined by the Executive Committee, to promptly pay annual dues or assessments to the Association if any dues or assessments are approved pursuant to these bylaws, a practitioner's Association membership and clinical privileges shall be immediately and automatically suspended and shall remain suspended until the practitioner provides evidence satisfactory to the President that he or she has paid such dues or assessments in the amount required. If the practitioner fails to provide such evidence within three (3) months after written warnings of delinquency, the date the automatic suspension became effective, then the practitioner shall be deemed to have voluntarily resigned his or her Association membership and clinical privileges as of the last date of such three (3) month period.

The Executive Committee may recommend further corrective action it may deem appropriate in accordance with these bylaws.

However, the giving of such notice shall not be required in order for any automatic suspension or restriction to become effective. Upon the effective date of an automatic suspension or restriction, the President or responsible department chair/chief shall have the authority to provide for alternative coverage for the patients of the suspended or restricted practitioner still in the Medical Center at the time of such suspension or restriction.

1761

6.5 Exhaustion of Remedies

1762

If any routine corrective action, summary suspension, or automatic suspension, as set forth in this

1763 Article VI, is taken or recommended, the practitioner shall exhaust all the remedies afforded by these
1764 bylaws before resorting to any legal action.

1765 **6.6 Applicability**

1766 The mechanisms for corrective action, as set forth in this Article VI, and for hearing and appellate
1767 review, as set forth in Article VII, are applicable only to members of the attending staff and
1768 physicians assistants. These mechanisms are not applicable to other allied health professionals or
1769 other persons who provide health services at the Medical Center.

1770 **ARTICLE VII HEARING AND APPELLATE REVIEW PROCEDURE**

1771 **7.1 Grounds for Hearing:**

1772 Except as otherwise provided in these bylaws, any one or more of the following actions or
1773 recommended actions shall be deemed actual or potential adverse actions and shall constitute
1774 grounds for a hearing:

- 1775 1. Denial of Association membership;
- 1776 2. Denial of requested advancement in Association membership category;
- 1777 3. Denial of Association reappointment;
- 1778 4. Involuntary Demotion to lower Association membership category;
- 1779 5. Suspension of Association membership;

1786 monitoring incidental to provisional status and Article V Section 3);
- 1787 12. Any other action which requires a report to be made to the Medical Board of California or
1788 other appropriate State licensing agency pursuant to California Business and Professions
1789 Code Section 805.01.

1790 **7.2 Request for Hearing**

1791 **7.2-1 Notice of Action:**

1792 In all cases in which action is taken or a recommendation is made as set forth in Section 7.1,
1793 the person or body taking the action or making the recommendation shall promptly give the
1794 applicant or Association member written notice of:

- 1795 1. the recommendation or action,
- 1796 2. that the action, if adopted, shall be taken and reported pursuant to Section 805 of
1797 the Business and Professions code; and
- 1798 3. the right to request a hearing and
- 1799 4. a summary of the rights granted in the hearing pursuant to the Association bylaws.

1800 If the recommendation or final proposed action is reportable to the Medical Board of
1801 California and/or to the National Practitioner Data Bank, a written notice shall state the

1802 proposed text of the report(s).

1803 **7.2-2 Request for Hearing:**

1804 The applicant, member or physician assistant (the "affected person") shall have thirty (30)
1805 days following the receipt of notice of such action or recommendation to request a hearing
1806 by the Judicial Review Committee. Such request shall be by written notice to the Executive
1807 Committee. In the event the applicant or member does not request a hearing within the time
1808 and in the manner described, the affected person shall be deemed to have waived any right
1809 to a hearing and accepted the action or recommendation in question which shall thereupon
1810 become final and effective immediately, subject to Article XVIII.

1811 **7.2-3 Action on Request for Hearing:**

1812 Upon receipt of a request for hearing, the Executive Committee shall schedule and arrange
1813 for a hearing. The date of the commencement of the hearing shall not be less than thirty (30)
1814 days nor more than sixty (60) days from the date of receipt of the request by the Executive
1815 Committee for a hearing; provided that when the request is received from an affected person
1816 who is under suspension which is then in effect, the hearing shall be held as soon as the
1817 arrangements may reasonably be made, so long as the affected person has at least thirty
1818 (30) days from the date of notice to prepare for the hearing or waives this right.

1819 **7.2-4 Notice of Hearing:**

1820 The Executive Committee shall give special notice to the affected person stating the place,
1821 time and date of the hearing, the acts or omissions with which the affected person is
1822 charged, or the reasons for the denial of the application or request of the applicant or
1823 affected person 7.2-5 Judicial Review Committee:

1824 When a hearing is requested, the Executive Committee shall appoint a Judicial Review
1825 Committee which shall be composed of not less than five (5) members of the Active Staff
1826 who shall be impartial and shall not have acted as accusers, investigators, fact finders, initial
1827 decision makers or otherwise not have actively participated in the consideration of the
1828 matter involved at any previous level and are not in direct economic competition with the
1829 involved physician. Such appointment shall include designation of the chair. Knowledge of
1830 the particular matter on appeal shall not preclude a member from serving as a member of
1831 the Judicial Review Committee. Of the Association members who serve on the Judicial
1832 Review Committee, at least one shall be a member who shall have the same healing arts
1833 licensure as the accused, and where feasible, the Committee shall also include an individual
1834 practicing the same specialty as the affected person.

1835 **7.2-6 Failure to Appear:**

1836 Failure, without a showing of good cause by the person requesting the hearing, to appear
1837 and proceed at such a hearing shall be deemed to constitute voluntary acceptance of the
1838 recommendations or actions involved which shall become final and effective immediately.

1839 **7.2-7 Postponements:**

1840 Postponements and extensions of time beyond the time expressly permitted in these bylaws
1841 may be requested by anyone, but shall be permitted by the Judicial Review Committee or
1842 the Hearing Officer, acting upon its behalf only on a showing of good cause or upon
1843 agreement of the parties.

1844 **7.3 Hearing Procedure**

1845 **7.3-1 Prehearing Procedure:**

- 1846 1. The affected person shall have the right to inspect and copy at the affected person's
1847 expense any documentary information relevant to the charges which the peer
1848 review body has in its possession or under its control, as soon as practicable after
1849 the receipt of the affected person's request for a hearing. The peer review body
1850 shall have the right to inspect and copy at the peer review body's expense any

1851 documentary information relevant to the charges which the affected person has in
1852 his or her possession or control as soon as practicable after receipt of the peer
1853 review body's request. The failure by either party to provide access to this
1854 information at least thirty (30) days before the hearing shall constitute good cause
1855 for a continuance. The right to inspect and copy by either party does not extend to
1856 confidential information referring solely to individually identifiable licentiates, other
1857 than the affected person under review. The presiding officer shall consider and rule
1858 upon any request for access to information, and may impose any safeguards the
1859 protection of the peer review process and justice requires.

1860 2. The Hearing Officer shall consider and rule upon any request for access to
1861 information and may impose any safeguards the protection of the peer review
1862 process and justice requires. In so doing, the Hearing Officer shall consider

1863 a. whether the information sought may be introduced to support or defend the
1864 charges;

1865 b. the exculpatory or inculpatory nature of the information sought, if any;

1866 c. the burden imposed on the party in possession of the information sought, if
1867 access is granted; and

1868 d. any previous requests for access to information submitted or resisted by the
1869 parties to the same proceeding.

1870 3. At the request of either side, the parties shall exchange lists of witnesses expected
1871 to testify and copies of all exhibits expected to be introduced at the hearing. Failure
1872 to disclose the identity of a witness or produce copies of all documents expected to
1873 be produced at least ten (10) days before the commencement of the hearing shall
1874 constitute good cause for a continuance.

1875 4. The affected person shall be entitled to a reasonable opportunity to question and
1876 challenge the impartiality of judicial review committee members and the Hearing
1877 Officer. Challenges to the impartiality of any judicial review committee member or
1878 the Hearing Officer shall be ruled on by the Hearing Officer. Either party may use a
1879 preemptory challenge to exclude up to two (2) Judicial Review Committee proposed
1880 panel members.

1881 5. It shall be the duty of the affected person and the Executive Committee or its
1882 designee to exercise reasonable diligence in notifying the chair of the judicial review
1883 committee of any pending or anticipated procedural disputes as far in advance of
1884 the scheduled hearing as possible, in order that decisions concerning such matters
1885 may be made in advance of the hearing. Objections to any prehearing decisions
1886 may be succinctly made at the hearing.

1887 **7.3-2 Representation:**
